

Free Concealed Carry Classes & Firearm Information.

I am a NRA Certified Instructor and passionate about the right to self defense. Most people don't realize that you can in fact carry a firearm safely and responsibly in the state of Oregon. I will give free classes to enable you to carry and walk you through the simple process of obtaining your permit with the county that you live in. I enjoy training people and spreading the knowledge to make my city/state a safer place to live in. If interested in any kind of firearm training or any information at all I am happy to help. You can call or text to make arrangements or get information.
